

**ENERGY+ INC.**

## **System Control Operator** (Journeyman Preferred)

Since 1906, **Energy+ Inc.**, a leading electricity distribution company, has been providing safe, reliable, quality electricity and customer service to its communities. Setting a standard of excellence as our benchmark, we exceed customer expectations. In other words, we deliver!

This union position will appeal to a safety-conscious electrical technician able to work steadily and effectively in dynamic situations, including outages. The successful candidate must enroll in and work towards the completion of the MEARIE System Control Operator certification program. As a certified System Control Operator, you will monitor, control and direct the operation of the Energy+ power distribution system. With safety as a top priority, you will work in both normal and emergency conditions on 4.8 kV – 27.6 kV overhead and underground systems and multiple transformer stations. Additionally, you will prepare and check switching instructions for crews and issue work permits and other isolations to administer the Utility Work Protection Code; maintain and update key control room systems; and participate in power system planning. Providing effective and courteous assistance to customers and coworkers at all times, you will also liaise with other operating authorities (including Hydro One and the IESO) to ensure procedural compliance.

Ideally, you've completed your Electrical Technician diploma, including courses in power system theory and electrical awareness. MEARIE Journeyman Operator Certificate or recognized equivalent; if an apprentice level, the ability and willingness to achieve same. Proficiency with MS Office (Word, Excel), AutoCAD, GIS, CIS and databases is a must, as are strong communication skills, a valid Class G driver's licence. Candidates will be tested as part of the interview process. System Control and Data Acquisition (SCADA) knowledge where applicable. This position will require the flexibility of working rotating shifts and overtime during emergencies or staffing limitations. Preference will be given to candidates who are near completion, or who have completed the MEARIE Operator Training. Ability to work on a rotating 24/7 shift schedule, and to be available for on-call and emergency duties; with the ability to respond and be in the Control Room within required time frames.

We offer an excellent working environment, competitive compensation and benefits, a pension plan and opportunities for professional development and to make a difference in our community. To become a valued member of our team, please forward your resume, by **February 28, 2018** to: [careers@energyplus.ca](mailto:careers@energyplus.ca). When applying for the position, please quote "**System Control Operator**" in the subject line.
